REDBACK FX90R

Floor Cross Red Beam

REDBACK FX90G

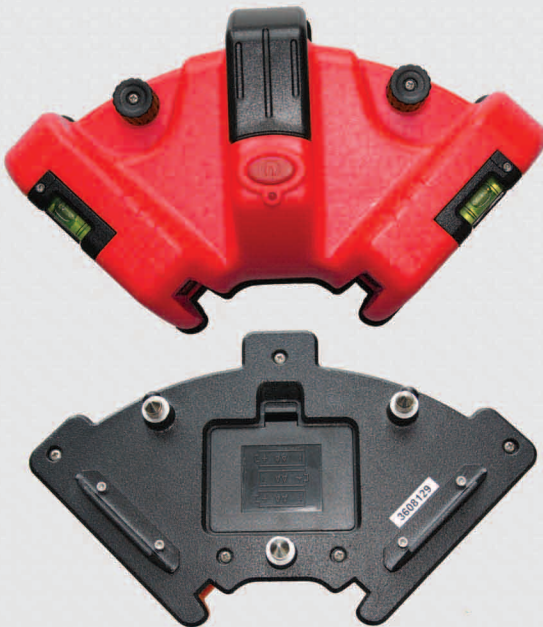

Floor Cross Green Beam

FX90R

FX90G

INCLUDES CERTIFICATE OF CALIBRATION

The RedBack Lasers FX90R and FX90G provides maximum brightness and clarity of laser floor lines indoors, ideal for all types of tiling and flooring fit out and installation.

The FX90 features two Floor lines at 90° to each other ideal for squaring and layout. Both models provide excellent brightness with the FX90G green beam providing the ultimate performance.

The FX90 feature a solid cast metal base with adjustment screws and bubble vials this ensures maximum accuracy. The base also features two guide rails ideal for lining up the laser lines to the tiles of other floor covering.

The FX90R and FX90G come in a handy padded carry bag and are powered by 3 "AA" Alkaline batteries supplied with it, the laser also comes with a laser target for added clarity.
