All these models are ideal for the following jobs and more

Tiling

Plastering

Kitchens & Bathrooms

Electrical Installation

Laser comes in Hard Shell Case with Li-ion and "AA" cell holder plus charger. Also included is an elevating magnetic bracket and Laser Target.

Suspended Ceilings

Warehouse & Commercial Installation

Window Installation

Garage/Roller Door Installation

Plumb, Levelling, Setout, Alignment & Square

With a Receiver for all these additional outdoor jobs

Building & Renovations

Decking & Pergolas

Fencing, Alignment & Height

Site Layout & Square

Laser comes in Soft Case with Li-ion and "AA" cell holder plus charger. The LLR705 electronic Receiver and Staff Clamp. Also included is an elevating magnetic bracket and Laser Target.

General Levelling
Showing optional Tripod & Staff Bundle 240HDF

Carpentry & Layout

Brick Laying

OPTIONAL 240HDF Tripod & Staff Bundle

Range with Receiver- Green 80m, Red 300m diameter

RedBack Lasers 3D Line Lasers feature ULTRA Bright Class 3r Laser Diodes with <5mW output for BOTH Red and Green models. Essentially, with RedBack Lasers 3L360 range, the Red Beam is the same brightness as the Green Beam.

It is worth noting, however, that the different colour laser displays differently in perceived brightness depending on the type of surface the laser is shone onto. Also some users will see Red more clearly than Green and some Green more than Red due to colour blindness and other factors.

So have a look at each of the two lasers shining onto different surface in the store now and make Your Selection.

Automatic Two Year Warranty No Registration Required

Li-ion Battery & Charger Plus "AA" Cell Battery Holder All Included

ACCURACY - +/- 2mm at 10m
 VISIBLE RANGE - Up To 40m (depending on ambient light)
 RECEIVER RANGE - 80m Green, 300m Red (diameter)
 LASER CLASS - 3r 635nm <5mW Red
 3r 522-542nm <5mW Green
 WATER DUST RATING - IP54
 SELF LEVELING RANGE - +/- 3 Degrees
 TEMPERATURE RANGE - -10° TO + 40°
